

EXPERIMENT – 2

AIM

To design and develop an **ANITS Central Placement Portal using HTML5 and CSS3** with multiple webpages, navigation links, forms and suitable styling.

DESCRIPTION

The experiment involves creating an **ANITS Central Placement Portal** using HTML5 and CSS3. The portal contains different webpages such as Home, About, Login, Registration, Companies and Contact. Navigation links are provided to move between the webpages. CSS3 is used to improve the layout, colors, fonts, spacing and overall appearance of the website. Images and other media are also included where required.
