

EXPERIMENT – 1

AIM

To design and develop a **static ATS-friendly resume webpage using HTML components** with personal, educational, technical and professional information.

DESCRIPTION

The experiment involves creating an **ATS-friendly Resume webpage** using HTML. The webpage contains different sections such as personal details, career objective, education, technical skills, projects, certifications and achievements. A profile image is also included. **Inline CSS** is used to style the HTML elements and improve the appearance and layout of the resume.

PROGRAM

```
<!DOCTYPE html>

<html>

<head>

    <title>Resume</title>

</head>

Work Experience

</h2>

AI/ML Project Developer

Developed machine learning models for prediction and classification tasks.

Performed data preprocessing, feature engineering, and model evaluation.

Worked with Python, Pandas, NumPy, and Scikit-learn.

Full Stack Development Project

Designed responsive web applications using HTML, CSS, JavaScript, and Flask.

Integrated backend services with databases.

Implemented user authentication and CRUD operations.

DETAILS ABOUT PROGRAM

Folder structure:

FullStack/

└─ Week-1/

└─ ATS-Resume/

└─ resume033.html

Profile Image

The resume033.html file was executed in a web browser using Google Chrome/Microsoft Edge.

Execution steps:

1. Opened the ATS-Resume folder in VS Code.
2. Opened resume033.html in the web browser.
3. Verified the resume content, styling and profile image.

OUTPUT

The ATS Resume webpage was successfully displayed in the browser with the required resume sections, profile image and styling.

7/26/21 10:07 PM

Resume

Koppoju Pravalika

Enthusiast AIML Engineer

Career Objective

Seeking an opportunity as an AI & Machine Learning Engineer where I can apply my programming, problem-solving, and analytical skills while continuously learning and contributing to innovative AI-driven solutions.

Educational Qualification

Degree	College	Year	Percentage / CGPA
B.Tech(Computer Science and Engineering in AIML)	Anil Neerukonda Institute of Technology & Sciences	2028	9
Intermediate	Sri Chaitanya Jr College	2024	98.5
SSC(10th)	Sri Anjan School	2022	94

Technical Skills

- AI
- ML
- Python
- Java
- MySQL
- Git & GitHub
- HTML
- CSS

Work Experience

- 1. AIML Project Developer**
 - Developed machine learning models for prediction and classification tasks.
 - Performed data preprocessing, feature engineering, and model evaluation.
 - Worked with Python, Pandas, NumPy, and Scikit-learn.
- 2. Full Stack Development Project**
 - Designed responsive web applications using HTML, CSS, JavaScript, and Flask.
 - Integrated backend services with databases.
 - Implemented user authentication and CRUD operations.

Projects

Project	Technology	Description
OptiCrop - AI Crop Recommendation System	Python, Flask, HTML, CSS, JavaScript, Scikit-learn	Developed an AI-powered web application that recommends suitable crops based on soil and environmental parameters using machine learning.
Plant Disease Detection	Python, TensorFlow, CNN, OpenCV	Built a deep learning model to identify plant diseases from leaf images and provide disease predictions.

Strengths

- Quick Learner
- Problem-Solving Skills
- Analytical Thinking
- Communication Skills
- Team Collaboration
- Leadership Skills
- Adaptability
- Time Management

Languages Known

- English
- Telugu
- Hindi

Declaration

I hereby declare that the above information is true and correct to the best of my knowledge and belief.
